PARTNERS- NEED A MINIMUM
OF THREE TEAMS AT LEAST.

PRIZES

1st- \$200

2nd- \$150

3rd- \$100

EVERYONE WELCOME!

Be Bear Wise this summer- 2015

The Ontario government and the Ontario Provincial Police (OPP) are reminding the people of Ontario to take simple precautions this spring to help prevent attracting black bears as they come out of hibernation.

The potential for human-bear conflicts increases when there is little natural food available for bears. If this happens, black bears will search for other food sources, such as garbage and bird feed, which can draw bears to populated areas.

Follow these simple instructions to minimize the chances of attracting bears:

- Store garbage in waste containers with tight-fitting lids.
- Put out garbage only on the morning of pick-up.
- Put away bird feeders. Seed, suet and nectar also attract bears.
- Clean outdoor barbecue grills after each use, including the grease trap underneath. Bears will be drawn by smells from great distances, including grease and food residue on grills.

Bears that enter a populated area aren't necessarily a threat to public safety. Public safety is at risk when a bear poses an immediate threat to your personal safety.

The Ministry of Natural Resources and OPP have agreed on the roles and responsibilities for both organizations to help the public understand which organization to contact when they encounter a bear.

If a bear is posing an immediate threat to public safety by exhibiting threatening or aggressive behaviour, call 911 or your local police. At the request of police, MNR will respond to emergency situations to assist. For non-emergencies, MNR operates the toll-free, 24/7 Bear Reporting Line (1-866-514-2327) and the Bear Wise website to provide the public with information and advice.
