Tips for coping in hot weather

The following advice applies to everybody when it comes to keeping cool and comfortable and reducing health risks:

- Shut windows and pull down the shades when it is hotter outside. If it's safe, open them for ventilation when it is cooler.
 - Avoid the heat: stay out of the sun and don't go out between 11am and 3pm (the hottest part of the day) if you're vulnerable to the effects of heat.
 - Have cool baths or showers, and splash yourself with cool water.
 - Drink cold drinks regularly, such as water and fruit juice. Avoid tea, coffee and alcohol.
 - Identify the coolest room in the house so you know where to go to keep cool.
- Wear loose, cool clothing, and a hat if you go outdoors.
